Project Details

MAD DADS has been a force for change for the last 25 years in the city of Minneapolis and 35 years nationally. The Minneapolis Chapter is ready to create bigger change within the community. We envision a MAD DADS Change Center that will be a community hub for violence prevention & intervention, Workforce development center, resource hub.

We believe with our community experience, depth of relationships, and partners we could create a centralized hub for specific community needs.

We don't want to do it alone. We are partnering with organization's that specialize in specific fields of sexual violence & trafficking, work force development and employment resources, housing support agencies, mental health support agencies, legal assistance as permit partners while we do what we best which is focus on community safety through our violence intervention and prevention strategies, connect people to the resources, and create jobs for people coming out of incarceration or in recovery from addiction.
